

Meeting Notes of the NOx Control Technical Advisory Group
July 17, 2003
Columbia, South Carolina

Attendees

Robbie Brown, Kevin Clark, Carl Cook, Frank Cramer, Terry Davenport, Peggi Davis, Dale Herendeen, Art Holbrooks, Bill Horton (via telephone), John Hursey, Heather Preston, Jack Preston, Jeff Silliman, and Gordon Smith

Comments to the Draft Regulation

The group discussed the comments that were received from stakeholders to the June 18th draft of the NOx Control Regulation. DHEC staff met to review prior to this meeting to discuss these comments and in many cases, modifications to the draft were made (a revised draft and guidelines document were distributed). Other comments still need further discussion. For instance, SCPPA had some concerns about control limits for lime kilns and recovery furnaces. DHEC staff and SCPPA have agreed to meet separately to discuss these concerns. Staff also added new language to the June 18th draft regulation to require tune-ups. This is intended to be very preliminary language and staff are soliciting comments on this new section in particular. Stakeholders agreed to provide comments on the revised draft by Friday, July 25th. Staff will review these comments and revise the draft regulation as appropriate in time for the next stakeholder meeting

What's next:

- Stakeholders will submit comments to the latest draft by 7/25
- Staff will make revisions to the draft as appropriate and provide these to the stakeholder group at the next meeting.
- Next meeting will be on Thursday, 8/17 at 1:30 (room 2280)
